Heaven Skincare...

WHY YOU SHOULD INVEST IN THIS SKINCARE RANGE

BY KIRSTY HAMILTON

If it is good enough for The Royal's and a number of A-list celebrities then it's good enough for us...

-Want to eliminate wrinkles without going down the route of Botox?

-Is it important to you to have natural, organic products used on your skin?

-Would you like your own little slice of Heaven?

WHAT YOU NEED TO KNOW ABOUT

Abeetoxin

ABEETOXIN® is a formulation of bee venom, Manuka honey and botulism, the **natural form of the toxin used in Botox** that can be harvested in bee hives.

This was invented by Deborah Mitchell herself.

Deborah created this as an effective, instant anti-ageing alternative to injecting any type of poison into their faces or bodies.

It softens lines, calms skin, boosts collagen and helps fade scarring and sunburn.

If you are looking for products with **ABEETOXIN** in look for the © next to the product.

If you are looking for anti-ageing look for the asterisk *

Normal Skin Type

What is normal skin?

- Not too dry and not too oily.
- No or few imperfections.
- No severe sensitivity.
- Barely visible pores.
- A radiant complexion.
- Balanced and calm.

Your skin needs:

To be looked after! Skin types change and we want to keep it in its natural state.

Dry Skin Type

What is dry skin?

- Dull, rougher complexion
- Almost invisible pores
- Red patches
- Your skin can crack, peel, or become itchy, irritated, or inflamed
- Skin is less elastic,
- Fine lines can look more exaggerated

Your skin needs:

Friendly moisture to revitalise itself.

Oily Skin Type

What is oily skin?

- Skin produces excess oil (sebum) particularly in the T-zone
- Skin tends to feel greasy or look shiny a few hours after washing.
- Shiny
- Thicker complexion
- Blackheads, pimples, or other blemishes

Your skin needs:

Skin needs sebum to protect and hydrate, your skin is over producing this, so we need a good skincare routine to MANAGE this over production:

Products
